General information

Position: Trainee Investment Solutions
Department: Investment Solutions and Business Development
Remuneration: Competitive
Employment: Full time
Start date: August 2010
Period: 6 months

Requirements:

- University degree in Economics, Finance or Business Administration
- Strong analytical and organizational skills
- Good knowledge of MS Office (Excel a must, VBA a plus)
- Fluent in English
- Good communication skills
- Team player with ability to work independently
- Highly motivated

Job description:

Since its inception in 1992, EIM has been recognised as a global leader in the design and management of tailor-made portfolios of hedge funds for institutional clients. EIM has also been managing equity and fixed income multi-manager programs since 1994.

In the context of EIM's marketing and sales efforts, the Investment Solutions team provides support on designing investment solutions, providing tailored investment proposals and marketing material in general.

The trainee's role will be to assist in a broad range of projects, touching on areas such as portfolio simulations, asset allocation studies, performance attribution analysis and design of presentations and marketing material. The trainee will also support our Business Development and Asset Management team on various projects.

Interested candidates should send their application to the above-mentioned e-mail address (in French or English)
